Summary

Did you notice something common between your most powerful decisions and the simplest stories you remember?

They both share the same DNA: Trust. I believe my role is to earn that trust by taking the most complex insights from AI and data and packaging them into clear, honest strategies that inspire real change. Storytelling is the superpower that turns potential into impact. I specialize in translating Computer Engineering and Data Science into strategies so clear, they make algorithms feel as engaging as your favorite movie.

Proof of Impact & Strategic Acumen

The Power of One Message: I converted a single cold message into a Principal Strategist (Founding Team) role at Curify. My mission was simple: use smart, AI-driven strategy to help doctors build influential brands and expand healthcare access.

Built for Global Leadership: I've been chosen for the McKinsey Forward 2025 program and the prestigious Aspire Leaders Program (Harvard University Initiative). These platforms confirmed my capacity for critical thinking and ethical leadership on a world scale.

The Communication Catalyst: As a TEDx Core Member and a certified master of storytelling (Think School), I specialize in the art of "trading trust" through powerful, persuasive communication.

Let's Create Something Great:

I am actively seeking opportunities that demand the integration of cutting-edge Data Strategy, AI-powered workflows, and world-class communication. If you need an ambitious team member who can simplify complexity, connect with an audience, and consistently deliver high-quality results, I'm ready to collaborate.

Connect with me right here on LinkedIn, or say hello via email.

Experience

HeartfeltAI

Building

December 2025 - Present (2 months)

N B Navale Sinhgad College of Engineering, Solapur (NBNSCOE ,Solapur)

Management Lead – Core Team

November 2025 - Present (3 months)

Solapur, Maharashtra, India

- Contributing across multiple responsibilities within the TEDx event committee.
- Successfully converted two event sponsors, managed the outreach communication, and created the pitch deck used to secure partnerships.
- Gained strong persuasive communication skills, exposure to diverse businesses, and confidence through real-world professional interactions.

Women in Data®

Member

October 2025 - Present (4 months)

As part of my dedicated journey from a background in Computer Engineering to a future in Data Science, I have joined this premier organization to connect with and learn from industry leaders and peers.

My active involvement is focused on:

- Deepening my technical expertise through workshops in data analytics, machine learning, and AI.
- Networking with a diverse community of professionals to share knowledge and explore emerging industry trends.
- Supporting the core mission of fostering diversity and empowering women in the STEM fields.
- This membership underscores my proactive commitment to professional growth and technical excellence in the data industry.

McKinsey & Company

McKinsey Forward Fellow

September 2025 - December 2025 (4 months)

Selected to participate in the highly competitive McKinsey Forward 2025 program, a global initiative designed to equip emerging leaders with core business and strategic skills. The program focuses on problem-solving, digital transformation, and professional leadership through a series of hands-on, real-world case studies and mentorship. Eager to apply and build on my skills in this dynamic, cohort-based learning environment.

Open Source Connect

Contributor

August 2025 - August 2025 (1 month)

Actively contributing to various open-source projects within the Open Source Connect India community. Focused on improving codebase, fixing bugs, and enhancing features to drive project success. Gaining hands-on experience in collaborative development workflows, version control, and community engagement.

Curify

Principal Strategist (Founding Team) – AI Media & Outreach | Lead Gen, Brand & Growth Strategy

June 2025 - August 2025 (3 months)

Bengaluru, Karnataka, India

As a founding team member at Curify, I am instrumental in empowering doctors to cultivate robust personal brands and enhance healthcare accessibility through strategic digital initiatives. My responsibilities encompass:

- Lead Generation Architecture: Identifying and securing high-value leads.
- LinkedIn Personal Branding Strategy: Developing and implementing tailored branding strategies for medical professionals.
- Brand Positioning & Content Strategy: Crafting comprehensive content frameworks and narratives.
- Social Media Growth: Driving audience engagement and expansion across LinkedIn and Instagram.
- Podcast Management & Visual Storytelling: Producing compelling multimedia content.
- AI-integrated Workflows & Automation: Implementing advanced AI tools to optimize operational and creative processes.

My early contributions have significantly elevated design quality, video engagement, and client research capabilities, establishing a foundation for scalable, strategic growth.

I am committed to building impactful solutions that bridge healthcare and digital innovation.

Aspire Institute

Aspire Leaders Program Fellow | Aspire Institute (Harvard University Initiative)

May 2025 - August 2025 (4 months)

Cambridge, Massachusetts, United States

Selected from a global applicant pool for a prestigious leadership program designed by Harvard faculty.

Engaged in immersive, real-world learning experiences focused on ethical leadership, global problem-solving, and innovation.

Collaborated with a diverse cohort of changemakers worldwide, fostering cross-cultural communication and inclusive thinking.

Completed modules on critical thinking, leadership frameworks, and entrepreneurial mindsets.

Applied insights to personal projects, content creation, and community leadership initiatives.

Freelance

Freelance Video Editor & Graphic Designer

August 2023 - August 2025 (2 years 1 month)

Solapur, Maharashtra, India

As a freelance creative partner for a school brand, I take full ownership of video editing and graphic design, from refining raw content to creating compelling, high-performing visuals that educate, engage, and inspire.

One of my reels reached 12.5K views in just 24 hours, and through a consistent and intentional content strategy, I helped grow the school's Instagram by 275%, all without a single paid ad.

Every frame, every transition, and every caption is crafted with performance in mind, blending aesthetic quality with results.

This experience helped me sharpen my skills in content marketing, storytelling, design thinking, and platform-based growth, all while balancing academics and client expectations.

Sinhgad Institutes

Anchor Lead & Event Manager | School & Community Programs

April 2021 - March 2023 (2 years)

Solapur, Maharashtra, India

Successfully hosted multiple events, including cultural functions, celebrations, extravagant events and awareness campaigns, with confidence and spontaneity at Sinhgad Public School, Kamlapur.

Took charge of end-to-end event planning, from concept development and scriptwriting to on-stage anchoring and coordination.

Collaborated closely with higher secondary school officials to align event content with institutional goals, ensuring smooth execution.

Managed teams, delegated tasks, and coordinated logistics to deliver impactful, well-organized programs.

Strengthened leadership, communication, and stakeholder management skills through hands-on experience.

Education

N B Navale Sinhgad College of Engineering, Solapur

(NBNSCOE ,Solapur)
